Marmo Portoro nero / Portoro Black Marble

Atolls

Coffee table, design by Migliore+Servetto

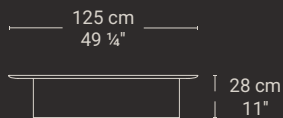

Come isole modellate dal tempo, i coffee table Atolls traducono in forma il concetto di simbiosi tra elementi, già esplorato nel dining table Islas. Il sistema, declinato in tre dimensioni, si compone di top autonomi ma profondamente interconnessi: superfici che sembrano adattarsi l'una all'altra, come plasmate dalle stesse correnti invisibili. Le geometrie morbide e affusolate evocano forme fluide scolpite dall'acqua, instaurando un dialogo naturale con il marmo. Ogni piano diventa così un paesaggio materico unico, in cui le venature esprimono tutta la propria forza espressiva. In contrasto, le basi introducono un segno architettonico rigoroso: due piani metallici curvati si accostano sfiorandosi senza mai toccarsi, generando un equilibrio sottile tra tensione e leggerezza. Linee nette e bordi verticali incidono lo spazio come lame di luce, definendo una presenza scultorea importante ma misurata. Rifinito a mano e personalizzabile nei materiali e nelle finiture, Atolls può vivere come elemento singolo o come arcipelago compositivo, accompagnando con eleganza poltrone e divani della collezione NEUTRA.

Coffee table designed by Migliore+Servetto

Like islands shaped by time, the Atolls coffee tables translate into form a quiet symbiosis between elements - an idea already explored in the Islas dining table. Developed in three dimensions, the system is composed of independent yet closely connected tops: surfaces that seem to respond to one another, as if shaped by the same invisible currents. Their soft, tapered geometries recall forms gently sculpted by water, establishing a natural dialogue with marble, where each slab becomes a unique landscape and its veining reveals its full expressive depth. In contrast, the bases introduce a more architectural design. Two curved metal planes stand in near-contact, almost touching yet never meeting - creating a subtle tension between balance and lightness. Sharp edges and vertical lines cut through space like blades of light, defining a presence that is sculptural, precise, and restrained. Hand-finished and fully customizable in materials and finishes, Atolls can be experienced as a singular object or as part of a wider compositional archipelago - elegantly accompanying the armchairs and sofas of the NEUTRA collection.
