## 4. Monica Armani for Neutra

Each piece in Majesté, the debut collection by Monica Armani for stone furniture purveyor Neutra, reimagines the bath as a soothing sanctuary of wellness and refinement. Inspired by the regal collars of historic portraits, the collection's velvety hand-finished stone surfaces rise with crisp, architectural lines before gently opening to the gaze. A freestanding bathtub, carved from Verde Borgogna quartzite, sports an ergonomic seat and discreetly integrated shelf that adds function and quiet sophistication. A seamless washbasin sculpted from a single block of stone and double-sided rotating mirror anchored on a solid base complete the ensemble.
