

MICELIO by Atelier Oï

Micelio redefines natural stone by transforming marble into a fluid, sculptural and dynamic material. Inspired by mycelial networks, the collection explores connection, movement and organic forms. With its integrated rotational design, each piece interacts with space, creating a living and evolving seating experience.

ONIS NIGHTSTAND by DRAW Studio

Inspired by the architectural elegance of the Onis collection, this nightstand combines the natural beauty of marble with the modernity of metal. Its cantilevered structure creates a striking sense of lightness, as if the marble volume were suspended in space. A refined metal base supports the piece with minimalist geometry, while subtle finishes and carefully crafted interiors highlight the collection's signature details and timeless sophistication.

NEUTRA

Unique by nature

ONIS CONSOLE by Draw Studio

Exploring the balance between lightness and structure, the Onis console features cantilevered marble modules that appear suspended in space. The design creates a refined dialogue between the timeless strength of stone and the modern elegance of metal. A minimalist base with sculptural L-shaped elements supports the piece, while leather-lined interiors and refined finishes reveal exceptional attention to detail.
